

**WATERLOO
HEALTHCARE**
Better Carts for Better Outcomes

**Cardiac boards are mandatory equipment on a hospital Code Cart...
so let's give some away and help our customers save more lives!**

**FREE
CARDIAC
BOARD**

With each code cart
purchased between
February 1 and
April 30, 2023
(on orders of 10+ carts).

Attach to Back of Cart

In a hospital, most cardiac emergencies occur to a patient in a critical care bed. The soft mattress does not provide a solid enough surface for clinicians to perform proper chest compressions during CPR. As a result, cardiac boards are positioned under the patient's shoulders to provide better support. This dramatically improves CPR efforts, and ultimately helps our customers save more lives.

DSI Direct customers will receive one free cardiac board (part# CBB-8) per code cart purchased on qualifying orders placed during the promo timeframe. Our CBB-8 cardiac board mounts on Waterloo Healthcare Aluminum or Steel Code Carts and is a **\$110 value!!!**

Code carts are defined as an ALL RED or ALL BLUE cart with a lever-lock and/or gatelocks for use with plastic tamper evident seals. Key/Electronic/Mechanical push-button locking carts that restrict access; are not considered code carts and do not qualify for the promo.

For more information go to www.DSIdirect.com or call 800-393-6090
